active detergent™

enzyme | shirt detergent

linden series | clean, soft, fresh textile care

Active Detergent is a premium quality phosphate free, triple enzyme fortified, peroxygen powdered laundry compound created specifically for shirt laundries. It has been specially formulated to deliver outstanding performance on white and mixed colored shirt loads. Contains an encapsulated color safe bleach blended with biodegradable synthetic detergents, a proprietary triple enzyme blend and a high level of non-phosphated detergent builders, and is equally effective in hard or soft water. It contains soil dispersants and suspending agents to prevent redeposition of soil, and an optical brightener for whiter whites and brighter colors. Excellent on cotton blends and synthetics.

directions for use

For commercial shirt loads typical effective use levels are 8 to 16 oz. per 50 lb. load.

For more specific and optimal directions contact your Santec representative.

DANGER

HAZARD STATEMENTS

Risk of serious damage to eyes. Harmful if swallowed.

PRECAUTIONARY STATEMENTS
