

bright safe

color-safe oxygen bleach

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

Bright Safe is a super concentrated color safe oxygen bleach designed for use in commercial laundry machines.

features

- As a super concentrated oxygen bleach it's economically suited for commercial laundries.
- Destains and brightens without damaging or weakening fabrics, including cotton.
- Can be safely used on white and mixed color loads; a truly color safe bleach.
- Is much less corrosive to laundry equipment than chlorine bleach.
- Eliminates needs to add neutralizer to prevent residual chlorine from weakening fabric during ironing.

Caution Bright Safe is an oxidizer and corrosive. Avoid all contact of Bright Safe with metals. Rapid decomposition with evolution of heat and pressure occurs when oxygen bleaches come into contact with transition metals such as iron and copper.

optimal applications

Commercial laundries, hotels, motels, health care facilities, nursing homes, and restaurants.

environmentally preferred green cove™

This product meets our Green Cove standard. Environmentally Preferred Green Cove products reflect our commitment to protect the environment, operate in a sustainable fashion and deliver products that make a difference for our planet and our customers every day.

product specifications

Physical Description	Clear liquid
Color	Water white
Odor	None to faint, pungent
pH	3.0 – 4.0
Viscosity	Water thin
Weight per gallon	9.35 lb. / gal.
Storage Stability	1 year minimum
D.O.T. Shipping label	Class 5.1 Oxidizer
