

# formula 747

versatile | laundry pre-spotter

**linden series** combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

**Formula 747** Super Orange is a 100% active citrus industrial degreaser, laundry pre-spotter, drain de-clogger, refuse and dumpster deodorizer and graffiti remover – and it's 100% environmentally safe.

## features

- A super powerful degreaser that is more effective and much safer than petroleum distillates, the old workhorse in the industry - completely biodegradable and environmentally safe.
- As a drain cleaner it is much less hazardous than the traditional caustic or strong acid based products .
- Leaves a fresh citrus fragrance with no objectionable petroleum solvent odors.

## modes of application

- For laundry pre-spotting: spot stained area liberally; 'feather' with spotting brush if available. Allow ten to thirty minutes before washing.
- For use as laundry additive, add in equal parts with wash detergent.
- To unclog drains pour about 8 oz. '747' into drain and allow stand for up to one hour; then flush with hot water.
- To maintain grease traps add about four ounces weekly, allow to stand for one hour, if possible, then flush.
- For odor control make 4 oz. per gallon dilution, then spray dumpsters, trash cans, other refuse receptacles and raw sewage areas.
- For graffiti or heavily greased surfaces prepare a thickened emulsion by mixing about 3 parts '747' with one part cold water, mix well and apply to surface by brush or sprayer. Allow to stay for 5-10 minutes; remove with a strong stream of water.

**optimal applications** Commercial laundries, hotels and motels, nursing homes and hospitals, eating and drinking establishments, schools, cleaning and maintenance of public facilities, managers of residential buildings, sewage and waste treatment facilities.
