OF CLEAN

TECHNICAL BULLETIN

COLORS OF CLEAN is our line of housekeeping products designed to be easy to use, efficient and safe. From state-of-the-art dispensing solutions to clear, simple color-named packaging, we've created fusion products in ways that make housekeeping a pleasure.

Too many spot removers only work on spots that you could practically rinse away with plain water. We created *Formula 806* to remove the stains that seem irremovable. Think fat, butter, lipstick, blood, sweat and tears. It works well on all these while still being friendly to you, the environment, and your fabrics including cotton, polyester and most other common fabrics. And it's also color safe. So you can once again wear that favorite dress you haven't put on since crabfest.

Features

- For pre-spotting: spot stained area liberally; 'feather' with spotting brush if available. Allow ten to thirty minutes before washing.
- For pre-soaking: use approximately two cups product for every five gallons of water. Allow sufficient time to soak, then proceed to wash.
- For use as laundry additive, add in equal parts with wash detergent.

Modes of Application

- A mixture of hydrophobic and hydrophilic solvents, and nonionic surfactants make for excellent oil and grease removal as well as certain cosmetic stains.
- A special organic chemical that's especially effective in removal of plastic-based stains such as plastic glues and adhesives, lacquers and polyurethanes, and paint and adhesive stains.
- The protease enzymes present aid in the removal of tough protein-based and/or baked-in stains and blood, while the lipase enzymes are especially effective in removing fatty stains such as lipstick, frying fats and butter, and the tough stains on collars and cuffs containing human sebum.

green cove™

BIODEGRADABLE, NON-TOXIC, PHOSPHOROUS FREE

Environmentally Preferred Green Cove

products reflect our commitment to protect the environment, operate in a sustainable fashion and deliver products that make a difference for our planet and our customers every day.

Product Specifications

Physical Description	Clear, viscous liquid
Color	Light tan
Flashpoint	N/A
Fragrance	Organic with citrus undertone
Weight per Gallon	8.5 lb / gal
pH	6.0 – 8.0
Storage Stability	1 year minimum
D.O.T. Shipping label	None
