

oxygen™

fruit | vegetable wash

element series | high performance cleaners. right where you need them.

**Oxygen** is a fruit and vegetable wash that is formulated to remove pesticides, chemicals, waxes, dirt, fingerprints and other contaminants from the surfaces of fruits and vegetables. Many contaminants such as pesticides and waxes are hydrophobic and insoluble in plain water. The combination of emulsifiers, organic acids and hydrogen peroxide in Oxygen facilitate the removal, suspension and thorough cleaning of these and other contaminants from the surfaces of fresh fruits and vegetables making them 100% safe and edible.

### directions for use

For firm fruits and vegetables Oxygen can be sprayed on directly - allow several seconds dwell time and rub clean with absorbent towel or cloth, then rinse with clean water thoroughly. Alternatively follow the soak method described below.

For soft produce such as lettuce, broccoli and grapes dilute Oxygen with water in a sink or wash basin at a rate of about 2 oz. per gallon water; allow produce to soak for a few seconds, swirl the produce in the water well, then rinse.

#### WARNING

#### HAZARD STATEMENTS

May cause skin irritation.

#### PRECAUTIONARY STATEMENTS

Wear protective gloves and eye protection. Wash thoroughly after handling.

#### FIRST AID

Eye Contact: Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. Seek medical attention if symptoms persist. Skin Contact: Wash skin with copious amount of water. Seek medical attention if symptoms persist. Inhalation: Remove to fresh air. Seek medical attention if symptoms persist. Ingestion: Do not induce vomiting. Drink copious amounts of water. Seek medical attention immediately.

#### STORAGE

Store in original container protected from sunlight in a well ventilated area, away from incompatible materials, food and drink. Keep out of reach of children.

#### SPILL / LEAK

Put on appropriate personal protective equipment. Move container from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

#### DISPOSAL

Dispose of material in accordance with local, state and federal regulations.

#### HAZARDOUS INGREDIENTS

Sodium Dodecylsulfate (151-21-3)
