

pivot detergent™

solid laundry detergent

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

Pivot Detergent is a highly concentrated solid laundry detergent which combines a fully balanced detergent with a non-caustic alkali break to deliver safe and superior cleaning for personal clothing and mixed loads in institutional and on premise laundries. As a solid, it is easy to handle, economical, and occupies very little space.

features

- A combination of a fully balanced formula including high concentration of emulsifiers with high levels of non-caustic and silicated alkalis make it a great one shot product for superior cleaning of mixtures of oily and particulate soils common in personal clothing and mixed loads treated in institutional and on-premise laundries. Very economical since it does the job of two products in one, a laundry detergent and a laundry alkali builder, and saves space and cost by not requiring an additional dispenser for an alkali builder.
- Water conditioners built into the formula make it equally effective at high levels of water hardness as in soft water.
- Special soil suspending agents present prevent re-deposition of soils, hence graying and/or dulling of fabric is minimized. With the additional presence of optical brighteners, the clothing comes out of the washer/dryer sharp and bright looking.

optimal applications

Hotels, motels, health care facilities, nursing homes, and institutional laundries.

product specifications

Physical Description	Solid Capsule
Color	Sky Blue
Flashpoint	None
Odor	Mild, pleasant
Density	70 lb / ft. ³
pH (1%)	11.2 - 11.4
Storage Stability	1 year minimum
D.O.T. Shipping label	None
