

six
clinging oven cleaner

resolve series represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

Six clinging oven cleaner is a fast acting, penetrating and clinging industrial oven and stove cleaner that dwells for a long time on all surfaces making it the first choice for vertical surfaces and heavily encrusted and baked-on greases and food soils.

features

- Its thickened formulation provides the longer contact time required to penetrate, loosen and remove carbon deposits and encrusted and baked-on food soils and grime from difficult to reach areas and vertical surfaces.
- Contains non-flammable yet potent solvent that makes product safer to use on heated surfaces.
- Designed as ready-to-use cleaner that can readily be sprayed or brushed on horizontal and vertical surfaces for rapid and easy cleaning.
- Contains low foaming emulsifiers to aid in cleaning/degreasing without the problem of excess foam.

Note: Due to highly alkaline nature of formulation, do not use on aluminum, copper, galvanized, plastic composition tile, painted surfaces, and self-cleaning and/or continuous cleaning ovens.

ideal for

ovens, grills, deep fat fryers, hoods, racks, burners, griddles, rotisseries and drip pans

optimal applications

Kitchens of Restaurants, Cafeterias, Schools, Hospitals, Nursing Homes, Bakeries, Hotels and Motels.

product specifications

Physical Description	Clear Liquid
Viscosity	Thick, smooth
Color	Light yellow amber
Flashpoint	None
Odor	Bland
Weight per Gallon	9.5 lb / gal
pH (1%)	12.5 to 13
Storage Stability	1 year minimum
D.O.T. Shipping label	Compounds, cleaning liquid (sodium hydroxide), 8, UN 1760, PG II
