

substance conditioner

concentrated water conditioner

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

Substance Conditioner is a concentrated water conditioner for commercial and institutional laundry applications. It contains reagents that remove hardness ions, tie up dissolved iron and remove iron deposits, and reduces soil and hardness redeposition on textiles.

features

- Effectively removes hardness ions from laundry wash water allowing reduced detergent levels to perform better.
- Chelating agents remove iron deposits and bind dissolved iron, dramatically improving detergency in iron-prone laundries.
- Laundered textiles appear whiter and brighter due to prevention of redeposition in hard water conditions.
- Prevents hard water scale build up on laundry equipment.

optimal applications

Commercial laundries, hotels, motels, health care facilities, nursing homes, and restaurants.

environmentally preferred green cove™

This product meets our Green Cove standard. Environmentally Preferred Green Cove products reflect our commitment to protect the environment, operate in a sustainable fashion and deliver products that make a difference for our planet and our customers every day.

product specifications

Physical Description	Clear liquid
Color	Water white
Odor	Bland
pH	11.5 - 11.9
Viscosity	Water thin
Weight per gallon	11.85 lb. / gal.
Storage Stability	1 year minimum
D.O.T. Shipping label	None
